Profile Summary

I am a diligent and enthusiastic undergraduate Data Science (Y4S2) student at SLIIT (Sri Lanka Institute of Information Technology) with Three years of experience in *full-stack web development, cross-platform mobile app development, and machine learning projects*. I thrive on challenges and continuously seek opportunities to expand my knowledge. I am eager to secure this internship to gain professional experience, enhance my technical skills, and work with emerging technologies.

Core Competencies

- | | | |
|-------------------------|-----------------------|--------------------------|
| • React.js , Vite.js | • Python , TensorFlow | • React native |
| • AWS , Azure | • AI & ML | • MYSQL, MongoDB |
| • Node.js , Express.js | • Java , Spring boot | • Javascript, Typescript |
| • Excel, PowerBI | • REST APIs | • Git |
| • Software Architecture | • Agile, Jira | • HTML, CSS |

Projects

Multilingual call center automation with sentiment analysis

Y4-Research Project

Group Project

- Implemented a Sinhala-English call center automation bot with sentiment analysis and content based CSAT prediction collaboration with LECO call center.
- Including Rag based LLM integration, Text sentiment analysis and Content based CSAT prediction

Ecommerce webapp – KD Aircon (Pvt) Ltd.

Personal

Real-world project

- Using React.js, Node.js , Express.js, MongoDB, Bootstrap, GitHub (Crud operations, Search , Report Generation)
- Including shopping cart, checkout, feedback, repair inquiry, admin.
- Responsive for all screen types.
- Link: <https://github.com/Vanuja03/KDAircon>

Group project

- Developed a personalized recommendation system using python.
- Containing rating-based, content-base, collaborative-filtering and hybrid recommendations.
- Using frameworks- Stream lit for frontend.
- Link: [https://github.com/thej-k/Personalized Ecommerce Recommendation System](https://github.com/thej-k/Personalized_Ecommerce_Recommendation_System)

Public Health Information System**Y2S2****Group Project (Leader of 8 members group)**

- Using React.js, Node.js , Express.js, MongoDB, Bootstrap, GitHub (Crud operations, Search , Report Generation)
- Link: <https://github.com/IT22025180/Public-Health-Care-System>

EDUCATION

- **2022(2021) - Advanced Level Examination | Taxila Central College Horana**

Physical Science Stream

- **BSc (Hons) Information Technology Specializing in Data Science**
Sri Lanka Institute of Information Technology (SLIIT)

Experiences - Software Engineering intern (6 month) | Gamage Recruiters

- Completed a **6-month Software Engineering Internship from March 2025 to September 2025.**
- Contributed to multiple versatile software projects across different domains and business requirements.
- Worked on frontend development using modern web technologies to build responsive and user-friendly interfaces.
- Developed and maintained backend systems, including APIs, databases, and server-side logic.

Certificates

- **Diploma of Information Technology**
ESoft Metro Campus - Kalutara Branch
- **AWS Academy Graduate** AWS
Academy Cloud Foundations
